Clinical Service Award (2006): Brain Injury Association of Wisconsin
Outstanding Faculty Lecturer – Marquette University (2010)

Professional Experience

7/16	Rogers Memorial Hospital Consulting Neuropsychologist
6/13 to present	Wheaton Franciscan System Consulting Neuropsychologist Conduct neuropsychological consultations and evaluations for sports and non-sports related concussion/mild traumatic brain injuries. Member of the Concussion Care Network of the Wheaton Franciscan Health System working together with treating physicians, physical therapists and athletic trainers to provide recommendations for return to school/work and to

participate in return to play/work decision-making.

- 5/13 Guest House
to present **Consulting Neuropsychologist**
- Provide clinical consulting services to treatment center addressing concerns related to homelessness and dual diagnosis, including severe mental illness and addictive disorders. Involved in program development, clinical training and staff supervision.

- 6/13 Psychological Health Services, LLC
to 8/16 **Neuropsychologist**

- 9/03 Archdiocese of Milwaukee Sexual Abuse & Prevention Services
to present **Consulting Psychologist**
- Provide clinical case review of psychological services provided to persons found to have been sexually abused by members of the clergy. Also involved in program development and service consultation to administrators of this program.

- 1/94
to present Independent Neuropsychological and Psychological Evaluations
Independent Examiner
- Conduct independent neuropsychological, psychological and forensic evaluations and records review related to work injuries, fitness for duty, worker's compensation disability determination, and in medical-legal contexts. Concerns addressed include acquired traumatic brain injury, mild brain injury or concussion, posttraumatic stress disorder and psychological reactions to acquired injuries. Conduct personal injury evaluations for medical legal and long-term disability claims.

- 5/91 New Life Resources Waukesha, WI
to present **Director of Adult & Child Neuropsychology Services**
- Provide adult and pediatric neuropsychological and psychological evaluation and treatment to persons with various medical and neuropsychological conditions including: learning disability, attention deficit disorders, Asperger's Syndrome, autism, brain trauma, and mild brain injury/concussion. 262.782.1474

- 6/98 Brotoloc Healthcare Services
to 10/10 **Consulting Neuropsychologist** Greenfield, WI.
- Responsible for the provision and supervision of neuropsychological evaluation and rehabilitation psychology services in a community based residential brain injury treatment setting for adults with acquired brain injury.

- 9/05 Guest House
to 12/09 **Consulting Neuropsychologist**
- Provide clinical consulting services to treatment center addressing issues of homelessness and dual diagnosis. Involved in program development, clinical training and staff/student supervision.

- 6/90 Children's Hospital of Wisconsin Wauwatosa, WI
to 12/00 **Consulting Neuropsychologist**
- Provided neuropsychological evaluations to an inpatient rehabilitation program.

Also provided family counseling and education, staff training and new employee orientation.

4/98 Lakeview NeuroRehab Waterford, WI.
to 4/99 **Director of Neuropsychological Services**

- Responsible for the provision and supervision of neuropsychological services in a freestanding rehabilitation facility offering acute and long-term hospital rehabilitation services to persons with traumatic brain injury and related neurological disorders. Serve as a member of an interdisciplinary treatment team for both adult and pediatric services. Chair of the Program Evaluation Committee.

3/91 Commission on the Accreditation of Rehabilitation Facilities
to 6/99 **Surveyor** Tucson, AZ

- Evaluation of rehabilitation facilities throughout the nation to assure compliance with accepted standards of professional practices, clinical care, and safety of persons with brain injury and related neurological conditions.

10/89 Curative Rehabilitation Services Wauwatosa, WI
to 4/98 **Clinical Director, Brain Injury Services**

- Responsible for program development and the clinical delivery of services with adult and pediatric neurologically impaired population. As a clinical supervisor of a treatment team composed of various professional rehabilitation personnel, I am responsible for maintaining adequate staffing patterns to assure rehabilitation and maintain a regular schedule of multidisciplinary training activities. In conjunction with the organization management, I participate in administrative information exchange, budgetary development, and in program evaluation/quality assurance monitoring. I maintain an active clinical caseload consisting of both adults and children, providing neuropsychological evaluations and therapy. Member of the Bioethics Medical and Quality Assurance Committees.

4/91 Curative Rehabilitation Services Wauwatosa, WI
to 9/96 **Director of Training**

- Served as training director of APA-approved predoctoral internship program. Provided direct training and supervision to predoctoral students in the area of neuropsychological evaluation and treatment.

3/95 Elmbrook Family Counseling Center Brookfield, WI
to 3/96 **Consulting Neuropsychologist**

4/87 Marianjoy Rehabilitation Center Wheaton, IL
to 9/89 **Staff Psychologist**

- Provided comprehensive neuropsychological and neurodevelopmental evaluations to inpatient and outpatient pediatric programs. Children referred for assessment have ranged in ages from 2-3 months through 16 years of age. Diagnoses include mild and severe closed head injury, CVA, spinal cord injury, intrauterine complications, attention deficit disorder, developmental delay, brain tumor, children with multiple disabilities, and other neurological conditions. As a member of an interdisciplinary treatment team, I was responsible for providing specific treatment recommendations, staff consultation, and developing behavior

management programs. Provided supportive adjustment treatment to impaired children and their families. Participated in school re-entry process.

4/87
to 9/88 Marianjoy Day Rehabilitation Hospital Program Wheaton, IL
Staff Psychologist

- Responsible for the development and implementation of psychological services in this new hospital program. In addition to the delivery of neuropsychological and psychological services to post-acute adult and pediatric brain trauma patients and adult stroke patients, I served as a member of an interdisciplinary treatment team. Clinical responsibilities included comprehensive neuropsychological evaluations and personality assessments, behavioral programming, individual and group adjustment counseling and family education. Program responsibilities included program development, staff development and training, and protocol writing.

7/86
to 9/89 Illinois State Department of Children and Family Services
Consulting Psychologist

- Provided clinical assessment of foster care and pre-adoptive child placement candidates. Performed child and adolescent assessments of conduct/delinquency disorders; regarding allegation of parental neglect/abuse.

10/79
to 4/87 Marianjoy Rehabilitation Center Wheaton, IL
Staff Psychologist

- Provide programmatic coordination of post-acute inpatient adult brain injury and pediatric programs. Responsibilities included comprehensive neuropsychological evaluations, personality assessments, intellectual and academic evaluations. Provided both individual and group psychotherapy to a variety of patient types including brain injury, stroke, spinal cord injury, chronic pain and pediatrics. Services included behavior management and programming, cognitive retraining, family therapy and education, consultation to physicians and staff. Provided training to medical residents on a variety of topics concerning the psychological and neuropsychological diagnosis and treatment of physically and neurologically impaired patients. Served on several departmental and hospital committees including protocol development, educational and library committees.

7/79
to 10/79 McLean County Mental Health Center Bloomington, IL
Crisis Intervention Therapist

- Primary responsibilities included diagnostic evaluation, initial treatment and referral recommendations for a variety of client types. Training included intervention in hostage situations. Disorders ranged from actively psychotic to substance abuse to transient emotional crises.

Educational Experience

10/89
to 9/90 **Post-Doctoral Supervision Year**
Curative Rehabilitation Services Wauwatosa, WI
Adult and Pediatric Brain injury Programs

- Supervision and training in neuropsychological evaluation of adults and children with acquired brain disorders, neurological conditions, dementing illnesses,

vascular disorders and related conditions. Attended neurology grand rounds and neuropsychology journal club. Together with medical staff, responsible for the teaching of neuroanatomy and neuropathology to brain injury program professional staff.

- Supervisor: Larry Kravitz, Psy.D. (Post-Doctoral Neuropsychology Fellow from Rehabilitation Institute of Chicago)

9/88
to 9/89

APA Approved Clinical Psychology Internship

Hines Veterans Administration Hospital

Hines, IL

Neuropsychology

- Training in neuropsychological evaluation with diagnostic and treatment services on adult neurology unit to individuals with known or suspected CNS disorders including trauma, CVA, infectious-metabolic conditions, and various dementing conditions. Also provided consultative services to several medical units throughout the hospital. Consulted to inpatient and outpatient psychiatry services providing differential diagnostic evaluations regarding organic versus functional conditions. Attended weekly neurology resident training in neuroanatomy, neuropathology, and neuroradiology and neurological functioning, bi-monthly neurology brain-dissections and pathology reviews. Participated in weekly neurology rounds under Frank Rabino, M.D.
- Supervisor: James Young, Ph.D.

Substance Abuse Program

- Training in the psychological evaluation and treatment of substance abuse disorder. Diagnostic services included evaluation of patterns of substance use as well as personality assessments of persons with multiple diagnoses. Provided cognitive-behavioral oriented individual, group and family therapy with predominantly minority patients.
- Supervisors: Stephen Schlesinger, Ph.D. / Bernard Sladen, Ph.D.

Geriatric Neuropsychology Program

- Received training in the neuropsychological evaluation of geriatric patients suffering from chronic medical and psychological conditions. Evaluated individuals' emotional adjustment to various disabling conditions and provided individual and group adjustment counseling. Served as a member of a multidisciplinary treatment team and provided consultative services to professional staff.
- Supervisor: Paul Fedirka, Ph.D.

9/87
to 5/88

Mercy Center for Health Care Services

Aurora, IL

Psychology Extern

- Training duties included the provision of individual, group and family psychotherapeutic services in an inpatient psychiatric setting. Primary patient populations included hospitalized adolescents with diagnoses ranging from acute

psychotic disorders, severe depressive disorders, attempted suicide and family dysfunction. An emphasis was placed on clinical training in family diagnostic assessments and family systems therapy. Additional training experiences included case consultation with psychiatrists and social workers and screening foster parent applications.

- Supervisor: Janet Kramer, Ph.D., Clinical Neuropsychologist

7/86 Rush Presbyterian St. Luke's Medical Center Chicago, IL
to 6/87 **Psychology Extern**

- Received supervised testing experience in a high-risk neonate unit. Training experience included the Brazelton Neonatal Behavioral Scale, the Bayley Scales of Infant Development with exposure to both normal and neurologically impaired neonates. Participated in the follow-up evaluation of infants and children (0 - 5 years) in which standardized intellectual and cognitive/perceptual assessment instruments were administered. Provided comprehensive neuropsychological evaluations using the Halstead-Reitan Neuropsychological Test Battery.
- Supervisor: Michael Nelson, Ph.D., Developmental Neuropsychologist

8/78 Quad County Counseling Center Princeton, IL
to 6/79 **Psychology Extern**

- Involved in the supervised counseling of adolescent and adult individuals in an outpatient setting. Responsibilities included psychodiagnostic assessment, treatment planning and implementation. Client concerns ranged from problems in living to serious disturbances in functional living including behavioral control difficulties, substance abuse disorders and interpersonal problems.
- Administered psychological evaluations to persons involved in judicial process.
- Supervisor: David Williams, Ed.D.

8/78 Student Counseling Center, Illinois State University Normal, IL
to 5/79 **Psychology Extern**

- Involved in the supervised counseling of young adult and adult undergraduate and graduate level college students. Responsibilities included psychodiagnostic evaluation, treatment planning and implementation of various client concerns including interpersonal difficulties, depression, decision-making problems and academic/vocational issues.
- Supervisors: Alan Sodetz, Ph.D. and Michael Baum, Ph.D.

Teaching Experience & Appointments

5/99 Wisconsin School of Professional Psychology Milwaukee, WI
to present **Clinical Assistant Professor**

- Research Methods
- Neuropsychology
- Advanced Neuroanatomy (Independent Study - 2012)
- Psychopharmacology
- Psychological Measurement

8/99 University of Wisconsin West Bend, WI

- to 12/99 **Lecturer**
 Department of Psychology
 • Introductory Statistics
 • Introduction to Psychology
- 7/98 Medical College of Wisconsin Milwaukee, WI
 to 12/08 **Assistant Clinical Professor**
 Department of Physical Medicine and Rehabilitation.
- 1/01 Children's Hospital of Wisconsin
 to present Children's Hospital of Wisconsin Psychology Staff Milwaukee, WI
- 1/91 Marquette University Milwaukee, WI
 to present **Adjunct Faculty**
 • Neuropsychology – Adult
 • Child Neuropsychology
 • Cognitive Neuroscience
 • Cognitive and Affective Neuroscience
 • Forensic Psychology/Neuropsychology
 • Psychopharmacology
 • Cognitive Assessment
 • Consultation
 • Personality Assessment
 • Advanced Psychological Assessment – Infancy through Adulthood
 • Assessment in Counseling
 • Psychological Disorders in Children
 • Psychological Treatment of Children and Adolescents
