Section IV. Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

**If yes, please specify the organization(s) that approved or accredited your program:**

State

NCATE

Other (specify: North Central)

**Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?**

No

## Section V. Technology

**Provide the following information about the use of technology in your teacher preparation program.**

**Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.**

**Does your program prepare teachers to:**

- **integrate technology effectively into curricula and instruction**  
Yes
- **use technology effectively to collect data to improve teaching and learning**  
Yes
- **use technology effectively to manage data to improve teaching and learning**  
Yes
- **use technology effectively to analyze data to improve teaching and learning**  
Yes

**Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.**

Throughout the Education course sequences, pre-service teachers are taught to effectively integrate technology into curricula and instruction, to collect data, to manage data and to analyze data to improve teaching and learning. For example, in EDUC 2227 "Introduction to Learning and Assessment," students are taught to use technologies to enhance learning and assessment. This is just one example of how technology continues to be woven and integrated throughout the sequence of Education coursework. In addition, during their semester of student teaching experience, students must demonstrate their ability to adapt instruction based on data collection and analysis. Technology continues to be utilized in that process.

## Section VI. Teacher Training

**Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.**

**Does your program prepare general education teachers to:**

- **teach students with disabilities effectively**  
Yes
- **participate as a member of individualized education program teams**  
Yes

- **teach students who are limited English proficient effectively**

Yes

**Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.**

Students in the College of Education must successfully complete EDUC 4217, "Children and Youth with Exceptional Needs." This class provides an introduction to children and youth with a wide range of exceptional educational needs, including students with diagnosed disabilities and with limited proficiency in English. The class emphasizes the central role of general education teachers in teaching all students, including exceptional learners. The readings, class discussions, and assignments prepare students to work collaboratively with colleagues in their school communities, as well as with families. The content explores characteristics of various educational exceptionalities, legal issues surrounding this area of education, formal and informal methods of assessment, instructional modifications and teaching strategies. It directs students to access and utilize theoretical and empirical literature focused on creating inclusive learning environments for ALL students. Students participate in 20 hours of field work in which they observe teaching and learning environments with exceptional learners.

---

**Does your program prepare special education teachers to:**

- **teach students with disabilities effectively**  
NA
- **participate as a member of individualized education program teams**  
NA
- **teach students who are limited English proficient effectively**  
NA

**Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.**

The Marquette University College of Education teacher preparation program does not prepare special education teachers.

## Section VII. Contextual Information

**Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.**

Consistent with Jesuit tradition, the College of Education programs at Marquette University prepare teachers, school counselors, counseling psychologists, community counselors and administrators to demonstrate a commitment to social justice through their work. This commitment is expressed first through our undergraduate and graduate students becoming excellent professionals who exhibit a deep knowledge and understanding of their disciplines, as well as how children, adolescents, and adults learn and develop. The commitment is further realized as students master the requisite skills of their profession. Taken together, their knowledge and skill enable Marquette students to be effective communicators whose pedagogy, administration, counseling practice, or professional psychology meets the intellectual, social, emotional, cultural, and physical needs of those they aspire to help. In effect, their practice takes the form of planning, instruction or

intervention, assessment, and the shaping of learning environments, all done with the race, social class, gender, ethnicity, and ability of their students or clients in mind. Marquette students also exhibit dispositions that support lifelong learning and an appreciation for research and professional growth. They continually reflect on their practice and role in society, as well as attempt to enhance the learning and general well-being of those they serve. In all of these endeavors, they grow in their engagement with critical analysis and advocacy around structural inequities in society and education. All College of Education programs foster personal and professional excellence, the promotion of a life of faith, and the development of leadership expressed in service to others. Respectful of these underpinnings, our learning community values the balancing of theory, research, and practice, and emphasizes active engagement, critical thinking, and social critique. Our students develop strongly held ideals of care, respect, and advocacy for the well-being of all humankind under the guidance of faculty who are exceptional teachers and mentors, prominent scholars, and exemplary models of service. Our faculty members aim to nurture the transformation of students into individuals who will grow continuously in their application of the ideals of social justice – in the practice of their profession, in their personal and collective involvement in society, and in their interactions and relationships with students, parents and guardians, clients, families, colleagues, school personnel, and community partners. The program also has a deep commitment to social justice in schools and society. A commitment to social justice demands that educators have a deep understanding of the disciplines they teach and use developmentally, and culturally responsive pedagogies that embrace technological advances to facilitate learning for all children. The university's focus on service in the urban environment, a cornerstone of the undergraduate program, also permeates the unit's advanced programs. Assessment of candidate outcomes occurs at multiple intervals throughout the program. In order to ensure that candidates are well-prepared to enter teaching and other related professions, the unit course goals and objectives are carefully aligned with the proficiencies associated with quality performance.
