#### MARQUETTE UNIVERSITY

**Opus College of Engineering**

- **88%** of 2021–2022 graduates completed an internship, co-op or research experience
- **93%** of 2021–2022 graduates are employed, in graduate school, or serving in the military after graduation
- **20%** of undergraduate students are first-generation (fall 2023)
- Median of reported starting salaries among 2021–2022 engineering graduates entering the workforce
  - **$70,000**

#### UNIQUE OFFERINGS FOR STUDENTS

| Direct-admit for undergraduates | Excellence in Leadership (E-Lead) program | Century-old engineering co-op and internship program | Dedicated career and academic advisers for undergraduate engineers |

#### Engineering Student Organizations

- **20+** including active chapters of:
  - Society of Women Engineers
  - Society of Hispanic Professional Engineers
  - National Society of Black Engineers
  - Engineers Without Borders

#### Summer Undergraduate Research Fellows

A dedicated program to partner students and faculty experts in outside-the-classroom, hands-on research experiences over summer

- **93%** of 2021–2022 graduates are employed, in graduate school, or serving in the military after graduation
- **88%** of 2021–2022 graduates completed an internship, co-op or research experience
- **29%** of Marquette undergraduate engineers are female, exceeding national averages

#### More than a makerspace

Marquette engineers access a fully equipped, on-site machine shop for design and production of prototypes, test fixtures and complex objects; in fact, our entire building is designed to be a living laboratory for engineers

#### 70% increase

FY23 engineering R&D expenditures in R&D expenditures over the last 7 years

#### 500+ companies across 30+ states

Engage with the Opus College of Engineering to work with Marquette engineers

#### FALL 2023

- **20%** of undergraduate students are first-generation (fall 2023)
- **37%** of 2021–2022 graduates completed an internship, co-op or research experience
- **50%** of 2021–2022 graduates are employed, in graduate school, or serving in the military after graduation
- **$70,000** Median of reported starting salaries among 2021–2022 engineering graduates entering the workforce

#### FY23 engineering R&D expenditures

$10 million
