

MARQUETTE UNIVERSITY

College of Nursing Transfer Guide

Transfer admission to the direct-entry Bachelor of Science in Nursing (BSN) at Marquette University is selective. Available spaces are limited. The following guide is intended to assist prospective transfer students considering application to the BSN program.

Marquette does not award transfer credit for Nursing courses completed at another college or university. Students that receive direct-entry BSN admission will typically have 3 years (6 semesters) remaining at Marquette, dependent on science coursework completed.

All applications to the BSN program will be holistically considered for admission. The best candidates for admission will meet the following criteria:

- Cumulative GPA of 3.0 or higher with Bs or better in all science coursework
- No college coursework with a grade lower than a C
- Prerequisite coursework completed or in progress (Transferology.com instructions on page 2):
 - Strongly recommended:
 - Human Anatomy and Physiology (BISC 1015)
 - Chemistry for the Health Professions (BISC 1060)
Not all institutions offer a course equivalent to BISC 1060 and/or BISC 2070. When no course equivalent exists, it is recommended the student complete General Chemistry 1 and General Chemistry 2 prior to transferring. The two courses will serve as a replacement for BISC 1060 and BISC 2070.
 - Biochemistry for the Health Professions (BISC 2070)
 - Recommended:
 - Introductory Psychology (PSYC 1001)
 - Development Psychology (PSYC 2101)
 - Foundations in Rhetoric (ENGL 1001)
 - Foundations in Philosophy (PHIL 1001)
 - Foundations in Theology (THEO 1001)

Courses may be in progress at the time of application. Official transcripts upon completion must be provided prior to final acceptance to the nursing program.

- Ability to meet the Technical Standards for Admission and Progression in the Program
- Ability to meet the Immunization and Background Check Requirements

Spring Term:

- NURS 3700- Care of Adults- Older Adults
- NURS 3900- Nursing of Children
- NURS 3984- Nursing Care for Persons with Chronic Conditions Clinical
- THEO 1001- Foundations in Theology

Fourth Year

Fall Term:

- NURS 4000- Quality and Safety in Nursing
- NURS 4700- Care of Adults- Older Adults 2
- NURS 4964- Nursing Care for Persons with Acute Conditions Clinical
- CORE 4929

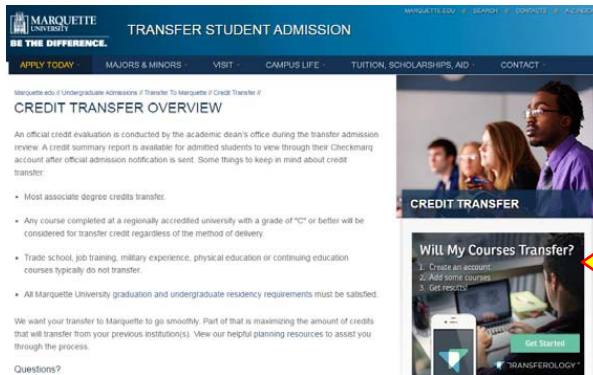

Spring Term:

- NURS 4800- Leadership in Professional Nursing
- NURS 4984- Transition into Professional Nursing Practice Clinical
- HEAL 4901- Palliative Care
- Nursing or Health Elective

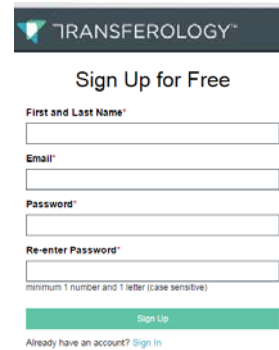

Transferology.com Instructions

To identify if your college or university has a course equivalent for the courses listed on page 1, please follow the Transferology.com instructions.

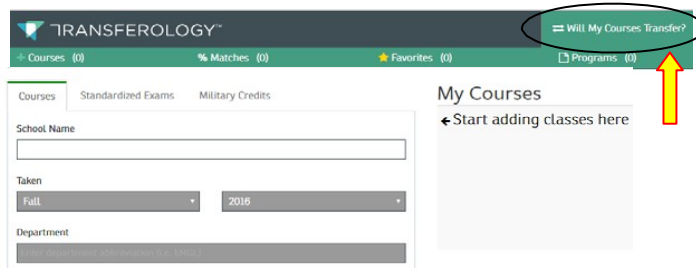

Go to www.marquette.edu/transfer and click on *Credit Transfer* under *Quick Links*.

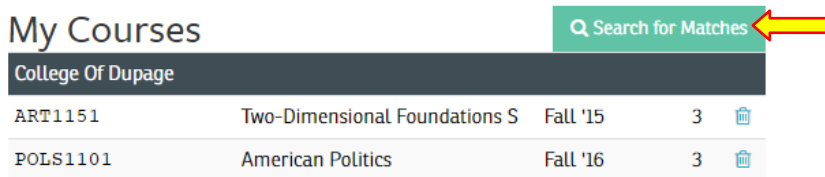

*Link will direct you to *Transferology*. Create a *free* account.

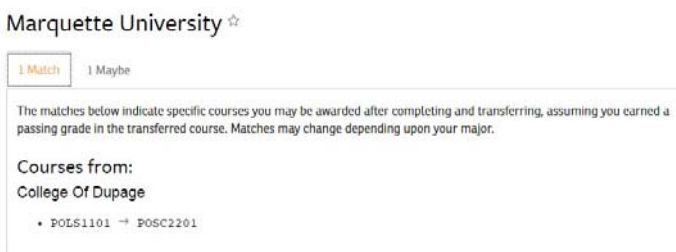

Click on *Will My Courses Transfer* and enter your school, term and class information.

Once all courses are entered, click *Search for Matches* and type *Marquette* in the textbox and click *Match*

This course results are identified by *Match, Miss or Maybe*.

Courses that appear under the *Maybe* tab do not have a current Marquette equivalent. Click on the *Request Information* link in the top right corner so that your courses can be sent to Marquette to be evaluated for credit. The Office of Admissions will follow up with equivalents in 3-5 days by e-mail.
