

## FALL 2015 SEMINAR SERIES

Integrative Neuroscience Research Center: Current Seminar Series

Date	Speaker	Title
Tuesday, September 15	<a href="#">Caron Dean-Bernhoft, Ph.D.</a> Department of Anesthesiology Medical College of Wisconsin	"Stress, Pain and Endocannabinoids"
Tuesday, September 29	<a href="#">Michael Bruchas, Ph.D.</a> Departments of Anesthesiology, Anatomy and Neurobiology Washington University	"Dissecting GPCR Signaling and Neural Circuits in Stress Behaviors"
Tuesday, October 13	<a href="#">Matthew Hill, Ph.D.</a> Department of Cell Biology and Anatomy University of Calgary	"Endocannabinoids as Polymodal Regulators of the Stress Response"
*Thursday, October 22	<a href="#">Alain Buisson, Ph.D.</a> Grenoble Institute for Neuroscience, France	"Functional and Structural Disruption of Excitatory Synapses as a Triggering Mechanism for Cognitive Impairment in Alzheimer disease"
Tuesday, October 27	<a href="#">Anita Manogaran, Ph.D.</a> Department of Biological Sciences Marquette University	"Yeast Prions - Providing Insight into Neurodegeneration"
Tuesday, November 10	<a href="#">Bruce Hope, Ph.D.</a> Behavioral Neuroscience Branch National Institute on Drug Abuse	"Neuronal Ensembles in Addiction"
Tuesday, November 17	<a href="#">John T Williams, Ph.D.</a> Vollum Institute Oregon Health Sciences University	"How L-DOPA Changes Dopamine-Dependent Synaptic Transmission"
Tuesday, November 24	<a href="#">Arthur Riegel, Ph.D.</a> Department of Neuroscience Medical University of South Carolina	"Stress Modulation of Mesocortical Dopamine System"
Tuesday, December 01	<a href="#">Stephan Lammel, Ph.D.</a> Department of Molecular and Cell Biology University of California, Berkeley	"Optogenetic dissection of neural circuits underlying reward and aversion"

*\*Dr. Buisson's presentation will be held in SC356 at 3:30 on THURSDAY, October 22<sup>nd</sup>*

**All seminars are held at 3:30 pm in  
Schroeder Complex, Room 256**
