[Couples Registration Form](#)

[Couples Fertility Health Registration Form](#)

When you complete these two forms this creates a file for you that is secure within the Microsoft environment managed by Marquette University IT department. As a nurse managed clinic we are very sensitive to HIPAA guidelines. Your teacher will be given access to your file. We will continue to use the self-paced online learning management system called D2L. Here you can upload your charts when you meet with your teacher in a private online environment.

Thank you and God bless you and yours during this very difficult time.
