Email

Describe your prior research experience(s). Provide an overview of the research topic, duration of the experience, and specific examples of the work you did (e.g., literature review, data analyses). If you do not have prior research experience, explain any barriers to research during your undergraduate education and why you are now interested in pursuing research as an OTD student. (250 words or less)

Describe how an experience as a GRA will help advance your career as a future occupational therapy practitioner-scholar (250 words or less).
