Becoming a Marquette student: The complete admissions process

Student submits application and required materials
- Marquette makes admission decision
  At this time, the committee also decides on scholarship awards for outstanding students.

- Student accepts admission and submits deposit
  A student must submit his or her enrollment deposit at Marquette by submitting the deposit and completing the online housing form. This reserves a student's spot at the university.

Marquette verifies financial sponsorship
- Marquette verifies financial sponsorship when a student's sponsor provides certified evidence of required finances and the availability of funds.

- Marquette issues I-20 or DS-2019
  After verification is complete, Marquette sends students a Form I-20 or DS-2019 certificate of eligibility. Students use this certificate to secure their visa.

Student arrives on campus
- Students attend orientation with the Office of International Education, move into the residence halls, meet with their academic advisers and finish their academic registration before beginning classes.

Annual expenses (2013-14)
- Undergraduate tuition
  - Fall term: $17,150
  - Spring term: $17,150
  - Summer term: $8,575

- Living expenses
  - Fall and spring terms: $16,530
  - Summer term: $7,765

- Books and miscellaneous
  - Fall and spring terms: $2,070
  - Summer term: $1,035

Cost estimates are expected to increase with yearly inflation and program development.

Scholarships
- More than 80 percent of first-year (freshman) international students received academic scholarships ranging from $2,000 to $16,000 per year (2013 figures). Other awards include scholarships for students transferring from two-year colleges and Jesuit secondary schools around the world, athletic scholarships; and a select number of awards for students with exceptional academic performance.

Founded in 1881, Marquette provides a world-class education to more than 11,500 students. With undergraduate research, Marquette University offers an opportunity to gain hands-on experience in your field of interest. Earn a doctorate in physical therapy in six years instead of seven, as Marquette provides a quick path to medical school. Marquette also offers internships and practical experience in various fields, such as accounting, marketing, and engineering.

Marquette University: Highly ranked. Highly respected.

You won't find the opportunity Marquette offers at many other institutions:

- **Unique university. Unique programs.**
  - More than 60 percent of first-year (freshman) international students received academic scholarships ranging from $3,000 to $14,000 per year (2013 figures). Marquette recognizes outstanding student achievement and offers several competitive academic, artistic and transfer student scholarships.
  - **Transfer credit:** Get ahead.
    - Transfer credit is available for students who have completed advanced course work, such as studies at other universities, A-levels or Advanced Placement, CAPE or International Baccalaureate credits.

More information about Marquette University can be found at marquette.edu/explore.

Marquette’s colleges

Following the Jesuit tradition, Marquette offers students breadth of knowledge through the University Core of Common Studies and depth of knowledge through a major field of study. There are more than 70 major fields of study in our seven colleges. (See the foldout chart at the back of this book for a complete list.)

Helen Way Klingler College of Arts and Sciences
The university’s largest college offers 30 majors.

College of Business Administration
The college is fully accredited by AACSB, the Association to Advance Collegiate Schools of Business, a distinction held by less than 25 percent of U.S. business programs.

J. William and Mary Diederich College of Communication
Students learn the latest trends from professionals in the fields of news, advertising, public relations and theatre arts.

College of Education
Course work prepares students to teach at the elementary or secondary level in Wisconsin.

College of Engineering
All programs are accredited by ABET, an American engineering accreditation society, and students get hands-on experience in one of the country’s best co-op programs.

College of Health Sciences
Renowned curriculum and research opportunities prepare students for careers in health-related fields.

College of Nursing
Students connect classroom skills with hands-on nursing work at Milwaukee hospitals and clinics.

Rankings and recognition

Marquette ranked 83rd among top national universities in the 2013 edition of America’s Best Colleges, released by U.S. News & World Report. This places Marquette among the top 10 percent of all U.S. universities.

Marquette was named in The Princeton Review’s annual Best 376 Colleges edition, placing it among only about 15 percent of the nation’s 2,500 four-year colleges. Students surveyed praised the Jesuit ideals at Marquette, where people are “dedicated to helping others,” are “incredibly motivated to do well” and, hopefully one day, will “change the world.”

Marquette was one of 49 schools named a “Best Buy School” in the 2012 edition of the Fiske Guide to Colleges. According to the guide, institutions were selected for their quality of academic offerings in relation to cost.

Marquette is known for its commitment to the community and was named to the 2013 President’s Higher Education Community Service Honor Roll by the Corporation for National and Community Service.

Other notable 2013 rankings from America’s Best Colleges:

College of Business
• Top 100 undergraduate business program
• Supply chain management ranked 16th
• Finance ranked 17th
• Accounting ranked 23rd
• Entrepreneurship ranked 24th

College of Health Sciences
• Physical therapy ranked 12th
• Speech pathology and audiology ranked 62nd
• The physician assistant program ranked 42nd
Phyu Thwe was so impressed by Marquette that she didn’t find it difficult to move 8,000 miles away from home and come to Milwaukee. She found her niche in the Department of Clinical Laboratory Science. “It’s hard to find a school that offers this major,” she says. “Marquette has a great program in CLS and a good reputation in health sciences programs in general.”

Thwe’s favorite class is Medical Bacteriology, especially the lab portion. She enjoys deciphering diagnoses based on test results and information from physicians. “Every week, I can’t wait to go to the lab,” she says. “It’s like solving a puzzle, and I love it.”
Daniel Widjaja
Kudus, Indonesia
FINANCE AND INFORMATION TECHNOLOGY

Daniel Widjaja is in the prestigious Applied Investment Management program, and his academic experience goes beyond the classroom. As an AIM student, he manages real money from Marquette’s endowment fund, which increases his financial analyst skills.

“The best part of the AIM program is the opportunity to apply the theories I learn in class,” Widjaja says. “I have to constantly remind myself I am dealing with real money, but the pressure is worth it.”

To help with that pressure, the AIM faculty, like all Marquette professors, offer close guidance. “The professors here care about how you do and are willing to do far more than what is expected of them,” he says. “This is a school where professors will know and remember your name.”

Dr. David Krause, director of AIM, thinks people will remember Widjaja’s name in the future. “He thinks very logically,” Krause says. “He also has great knowledge about global political and economic events, which is essential in the investment business.”

Being a Marquette student means Widjaja has access to a strong alumni network. “This network provides students a lot of advantages when looking for jobs and internships,” he says.

Dr. Andrew B. Williams
PROFESSOR AND JOHN P. RAYNOR, S.J., DISTINGUISHED CHAIR

Dr. Andrew Williams thinks the power of robotics and artificial intelligence can change the world. And as director of Marquette’s Humanoid Engineering and Intelligent Robotics Lab, he and his students are working to make that happen.

The students’ latest prototype is a robot that teaches children how to do pushups, leg stretches, and sit-ups to encourage increased physical activity and combat childhood obesity. Says Williams, Grad ’95, “There isn’t anyone else doing what we are doing with robots.”

Junior Darryl Ramgoolam explains, “The project may be difficult, but Dr. Williams puts a lot of faith and trust in his students and believes that we can accomplish anything.”

Williams challenges his students: “I want Marquette students to be part of the next generation of technical leaders who are thinking about ethical concerns related to new technology to promote policies that are beneficial to everyone.”

Blackmoney.com named Williams one of its 50 Most Important African-Americans in Technology.

“The best part of the AIM program is the opportunity to apply the theories I learn in class.”
Campus life: A home away from home

Campus life at Marquette is full of activities and excitement. In addition to studying, students join organizations, play sports, engage in community service and explore new interests.

Residence halls: Create lasting memories.
Living in a residence hall is more than having a place to study and sleep. It's having a home away from home. It's discovering people with different interests and sharing with people of different cultures. It sets the scene for lifelong memories and friendships.

Most undergraduate students live in university residence halls during their first two years. Only students who are 21 or older or who graduated from secondary school more than two years before enrolling at Marquette are exempt from this requirement.

Student life: Explore your interests.
Whether you like water polo or linguistics, community service or journalism, you can choose from hundreds of activities. The Office of Student Development helps students make the most of their experiences, and the student government manages a yearly budget of nearly $500,000 to support these activities.

Join a club, any club.
Marquette has more than 250 student organizations in a wide range of categories, including academic, cultural, media, performing arts, political, service, social awareness, social fraternities and sororities, and spiritual and religious. Plus, if students don’t find what they like when they arrive, they can form their own club.

Campus events to athletics: Get involved.
Throughout the year, Marquette hosts hundreds of concerts, speakers and on-campus events. The university has 16 Division I varsity sports teams that compete in the prestigious Big East Conference, and many students purchase tickets for men’s basketball games, which are played at the nearby BMO Harris Bradley Center. The university also has two recreation centers with state-of-the-art exercise facilities and encourages students to get involved with intramural sports, which is a great way to exercise and meet new friends.
Original enrolled at Loyola University New Orleans, Jorge Domenzain came to Marquette after Hurricane Katrina temporarily closed the university. He returned to Loyola — but liked Marquette so much that he transferred back. “I decided to return because of the superior quality of education and reputation of Marquette,” he says.

While a student, Domenzain was extremely active on campus and helped found a chapter of Omega Delta, a multicultural fraternity. “We made a tremendous impact on the Marquette campus in terms of brotherhood, multiculturalism and community service,” he says. “In just under a year, we had 17 members and grew at a very fast pace.”

Domenzain also interned at Johnson Controls, an international company headquartered in Milwaukee, which he says gave him valuable experience: “As a business student, I feel like this was one of the most important things I accomplished in my college career.” Domenzain’s education and internship helped him secure a permanent position at Johnson Controls in Mexico upon graduation, where he continues to work.

“My internship was a true blessing. It allowed me to gain valuable experience in a great company and continue to support myself financially.”
Milwaukee: Big city. Big opportunities.

Marquette is located in Milwaukee, Wisconsin, an urban setting with a vibrant arts scene, professional sports, restaurants and nightlife. The city gives students unique access to outstanding community service and internship opportunities.

Discover a top American city
- Ranking among the top U.S. cities by population
- Home to nine Fortune 500 company headquarters
- Outstanding attractions, including a repertory theatre, a symphony orchestra, two opera companies, a ballet company, diverse art galleries, a public museum, the Milwaukee County Zoo and the world-renowned Milwaukee Art Museum
- Year-round professional sports entertainment: Green Bay Packers football (NFL), Bucks basketball (NBA), Brewers baseball (MLB), Admirals hockey (AHL), Wave soccer (MISL) and the Pettit National Ice Center (an Olympic training facility)
- Rich cultural heritage and dozens of ethnic and international festivals each year, including Summerfest, the world’s largest outdoor music festival
- More than 10 miles of lakefront, 15,000 acres of parks, bike paths and beaches
- Quick and easy access to Chicago, a short bus or train ride away

Internships: A classroom in the city
Many international students use internships to enhance their regular course work. Several of these opportunities are only minutes from campus and include:
- Ernst & Young
- Harley-Davidson
- KPMG International
- Rockwell Automation
- Johnson Controls
- Wisconsin Department of Transportation

Survey says
- 15th most walkable large city in America, according to walkscore.com
- 7th most exciting American city, according to movato.com, a real estate blog
- Among techie.com’s “10 most unexpected cities for high-tech innovation”

**Transfer students** — International transfer applications are reviewed on a rolling basis, and admission is granted as space permits. However, please submit all materials as early as possible to allow time for review and enrollment.

### Required application materials:

- **Apply online**
  - marquette.edu/oie/apply
- **Application fee of U.S. $40**
- **Academic records**
  - Secondary school internal academic records (transcript)
  - Secondary school external examination records (i.e., IGCSE, IB, WAEC, SPM) as soon as they’re available
  - SAT or ACT results (for students whose secondary schools use U.S. curricula only)
  - Post-secondary academic records (if applicable)
- **Evidence of English language proficiency**
  - This is usually a TOEFL or IELTS score, though other forms of evidence may be considered.
- **Recommendation letter from a recent teacher or counselor**
- **Evidence of financial ability**
  - Submit the financial sponsorship form or, in some cases, an official document indicating governmental support.

### Conditional admission

Conditional admission is available by request if all required application materials are satisfactory except for evidence of English language ability. Conditional admission is a promise to admit a student when his or her English ability improves to the required standard. Marquette does not offer a full-time English as a Second Language program.
Becoming a Marquette student: The complete admissions process

Student submits application and required materials

Marquette makes admission decision
At this time, the committee also decides on scholarship awards for outstanding students.

Student accepts admission and submits deposit
A student must send in his or her enrollment deposit to Marquette by submitting the deposit and completing the online housing form. This reserves a student's spot at the university.

Marquette verifies financial sponsorship
Marquette verifies financial sponsorship when a student’s sponsor provides certified evidence of required finances and the availability of funds.

Marquette issues I-20 or DS-2019
After verification is complete, Marquette sends students a federal certificate of eligibility. (2013 figures). Other awards include scholarships for students transferring from two-year colleges and Jesuit secondary schools around the world, athletic scholarships, and a select number of awards for students with exceptional academic performance.

Marquette University: Highly ranked. Highly respected.

Founded in 1881, Marquette provides a world-class education to more than 11,500 students. With internationally recognized professors and state-of-the-art facilities, it’s no surprise that U.S. News & World Report consistently ranks Marquette in the top 10 percent of all American universities.

Unique university, unique programs.
You won’t find the opportunities Marquette offers at many other institutions:
- Undergraduate research
- Pre-dental Scholars Program
- Doctor of Physical Therapy
- Pre-law Scholars Program
- Accelerated bachelor's and master's degree programs
- Combined programs to earn both degrees.
Options include:
- Accounting
- Biological engineering
- Civil engineering
- Economics
- Electrical engineering
- Speech-language pathology
- Human resources

Scholarships: Fund your education.
More than 50 percent of first-year (freshman) international students received academic scholarships ranging from $3,200 to $14,000 per year (2013 figures). Marquette recognizes outstanding student achievement and offers several competitive academic, athletic and transfer student scholarships.

Transfer credit: Get ahead.
Transfer credit is available for students who have completed advanced course work, such as studies at other universities, A-levels or Advanced Placement, CAPE or International Baccalaureate credits.

Apply directly to your major

Students apply directly to their college of choice, meaning they’re guaranteed a spot in their major from the first semester. Students who are undecided about a major have access to our award-winning advising center to help them select an academic path. And it is easy to change majors or colleges.
