<sup>1</sup>Core item median combines the responses to the four core items. These are: How was this class as a whole? How was the content of this class? How was the instructor's contribution to this class? How effective was the instructor in this class?

<sup>2</sup>The department/college comparisons are based on classes evaluated within the last two academic years in the same department/college & course level.

<sup>3</sup>Class deciles range from 0 (lowest) to 9 (highest). A decile of 0 means your core item median is in the lowest 10% of all classes in the comparison group. A decile of 1 means your core item median is above 10% and below 80% of the classes in the comparison group. Classes with a decile of 0 or 1 are highlighted in red; classes with a decile of 8 or 9 are highlighted in green.

\*Cross-listed class; all cross-listed sections are combined with the first section alphabetically being listed. Results reflect responses from all sections.
