

**FY2017 Summer Faculty Fellowship Awardees  
December 2017**

Edwin Antony, Assistant Professor, Biological Sciences. *"The Role of Senataxin in Amyotrophic Lateral Sclerosis."*

Mark Berlin, Assistant Professor, Political Science. *"The Determinants and Effects of National Legislative Reforms to Prevent Torture."*

Amy Blair, Associate Professor, English. *"The Contagion of Reading: Healthful Reading for Modern Children, as Recommended by Good Housekeeping Magazine."*

Michael Cover, Assistant Professor, Theology. *"Philo of Alexandria: On the Change of Names: Introduction, Translation, Commentary."*

Alison Efford, Associate Professor, History. *"Suicide and Immigrant Emotions, 1882-1924."*

Leah Flack, Associate Professor, English. *"James Joyce and Classical Modernism."*

Tony Gamble, Assistant Professor, Biological Sciences. *"The Assembly of a High Quality Gecko Genome."*

Melissa Gibson, Assistant Professor, Educational Policy and Leadership. *"Innovation in Civic Education: Social Studies Pedagogies for Twenty-First-Century Citizenship."*

Owen Goldin, Professor, Philosophy. *"Opposition, Symbolic Classification, and Explanation in Early Greek Philosophy."*

Sarah Hamilton, Assistant Professor, Mathematics, Statistics, and Computer Science. *"Improving Visualization of Heart and Lung Function in ICU Patients with Electrical Impedance Tomography."*

Simon Howard, Assistant Professor, Psychology. *"The Message: Conscious Hip-Hop Lyrics Buffer Stereotype Threat for Black Americans."*

Theresa Jerofke-Owen, Assistant Professor, College of Nursing. *"Patient Preferences for Engagement in Healthcare."*

Lezlie Knox, Associate Professor, History. *"Mariano of Florence and Religious Life in Cinquecento Italy."*

Brooke Magnus, Assistant Professor, Psychology. *"The Influence of Response Format on Self-Reported Symptom Frequencies on a Health-Related Quality of Life Measure."*

Anita Manogaran, Assistant Professor, Biological Sciences. *“Determining How Yeast Chaperones Disassemble Amyloids Associated with the Transthyretin Protein.”*

Laura Matthew, Associate Professor, History. *“Circulations: Death and Opportunity on Mesoamerica's Costa del Sur, 1500-1630.”*

Walter McDonald, Assistant Professor, Civil, Construction, and Environmental Engineering. *“Evaluating the Effect of Microenvironments on Stormwater Management in Southeast Wisconsin.”*

Tim McMahon, Associate Professor, History. *“Beyond the Boundary Commission: Partitioned Identities in Modern Ireland.”*

Henry Medeiros, Assistant Professor, Electrical and Computer Engineering. *“Estimation of flower and fruitlet load in apple orchards with computer vision.”*

Erik Munson, Assistant Professor, Clinical Laboratory Science. *“Surveillance of Wisconsin Organisms for Trends in Antimicrobial Resistance and Epidemiology.”*

Anthony Parolari, Assistant Professor, Civil, Construction and Environmental Engineering. *“Food-water Security in Drought Prone Regions: Interaction Between Bioengineered Drought Tolerance and Climate.”*

Albert Rivero, Professor, English. *“Jane Austen and the Sentimental Novel.”*

Peter Staudenmaier, Associate Professor, History. *“The Politics of Blood and Soil: Environmental Ideals in Nazi Germany.”*

Eric Waters, Assistant Professor, Communication Studies. *“An Ounce of Prevention: Assessing Stakeholder Collaboration in Cyberbullying Abatement.”*

### **FY2017 Regular Research Grant Awardees December 2017**

Edwin Antony, Assistant Professor, Biological Sciences. *“The Role of Senataxin in Amyotrophic Lateral Sclerosis.”*

Mark Berlin, Assistant Professor, Political Science. *“The Determinants and Effects of National Legislative Reforms to Prevent Torture.”*

Joseph Brown, Assistant Professor, Digital Media and Performing Arts. *“Documentary Film: A Strong Heart: The Rod Coronado Story.”*

Michael Donoghue, Associate Professor, History. *"Race, Identity, and Gender in U.S. Military-Cuban Relations 1941-1964."*

Alison Efford, Associate Professor, History. *"Suicide and Immigrant Emotions, 1882-1924."*

Leah Flack, Associate Professor, English. *"James Joyce and Classical Modernism."*

Tony Gamble, Assistant Professor, Biological Sciences. *"The Assembly of a High Quality Gecko Genome."*

Melissa Gibson, Assistant Professor, Educational Policy and Leadership. *"Innovation in Civic Education: Social Studies Pedagogies for Twenty-First-Century Citizenship."*

Matthew Hearing, Assistant Professor, Biomedical Science. *"Girk Channels in Prefrontal Cortex Cognitive Function."*

Simon Howard, Assistant Professor, Psychology. *"The Message: Conscious Hip-Hop Lyrics Buffer Stereotype Threat for Black Americans."*

Theresa Jerofke-Owen, Assistant Professor, College of Nursing. *"Patient Preferences for Engagement in Healthcare."*

Lezlie Knox, Associate Professor, History. *"Mariano of Florence and Religious Life in Cinquecento Italy."*

Evgueni Kovriguine, Assistant Professor, Chemistry. *"Mechanisms of Protein-Lipid and Protein-Protein Interactions in Cytochrome P450 Oxidoreductase."*

John LaDisa, Associate Professor, Biomedical Engineering. *"Correlating Wall Shear Stress to Cellular Proliferation in the Setting of Drugs Used with Current Coronary Artery Stents."*

Brooke Magnus, Assistant Professor, Psychology. *"The Influence of Response Format on Self-Reported Symptom Frequencies on a Health-Related Quality of Life Measure."*

Anita Manogaran, Assistant Professor, Biological Sciences. *"Determining How Yeast Chaperones Disassemble Amyloids Associated with the Transthyretin Protein."*

Laura Matthew, Associate Professor, History. *"Circulations: Death and Opportunity on Mesoamerica's Costa del Sur, 1500-1630."*

Walter McDonald, Assistant Professor, Civil, Construction, and Environmental Engineering. *"Evaluating the Effect of Microenvironments on Stormwater Management in Southeast Wisconsin."*

Tim McMahon, Associate Professor, History. *“Beyond the Boundary Commission: Partitioned Identities in Modern Ireland.”*

Henry Medeiros, Assistant Professor, Electrical and Computer Engineering. *“Estimation of flower and fruitlet load in apple orchards with computer vision.”*

Erik Munson, Assistant Professor, Clinical Laboratory Science. *“Management of Sexually-transmitted Infections in Underserved Male Populations Using a Four-component Molecular Test.”*

Anthony Parolari, Assistant Professor, Civil, Construction and Environmental Engineering. *“Food-water Security in Drought Prone Regions: Interaction Between Bioengineered Drought Tolerance and Climate.”*

Eric Waters, Assistant Professor, Communication Studies. *“An Ounce of Prevention: Assessing Stakeholder Collaboration in Cyberbullying Abatement.”*
