have served”**

## Physician Assistant Post-Graduate Residency Program in Primary Care

### Advanced Clinical and Didactic Training

The year-long residency will focus on training the PA Resident with advanced clinical knowledge and skills to care for complex patients in a VA Primary Care Clinic. The curriculum will include a mix of advanced general medical didactic topics as well as multiple clinical rotational experiences. This is an excellent opportunity to add expertise in Primary Care to your PA credentials while enhancing your skills, experience and marketability. Time in residency also applies to federal longevity.

### Educational Components

\*Lectures/ conferences/ journal clubs mirroring clinical rotations

\*Dedicated self learning time/ online learning

\*Lectures in conjunction with the Marquette University Emergency Medicine Residency Program

\*Patient safety and quality improvement

### Clinical Rotations

\*Primary Care including a weekly continuity clinic and women's health clinic

\*Geriatrics

\*Cardiology

\*Emergency Medicine/Urgent Care

\*Behavioral Medicine

\*Inpatient Medicine

\*Pre-anesthesia Clearance clinic

\*Pain medicine/Musculoskeletal

\*Spinal Cord Injury/Rehab

\*Endocrine/Radiology

\*Neurology/Dermatology

\*Home Care and Electives

\*Urology

### Benefits

\*Receive clinical and academic training from Medical College of Wisconsin and Marquette University physicians, physician assistants and faculty

\*Learn the VA Patient Aligned Care Team or PACT methodology of care to improve access and availability of care to our nation's veteran population

\*Discover the VA's outstanding Computerized Patient Record System

\*Receive a stipend for your year of training

\*Vacation time and sick leave

\*Eligible for life and health insurance

\*Gain invaluable experience, build your resume and establish a career within the VA

*Applications are currently being accepted for the July 1<sup>st</sup>, 2014 through June 30<sup>th</sup>, 2015 academic year. Applications are due by January 17<sup>th</sup>, 2014.*
