Regular business: USS officer/chair reports

Secretary’s request

• Secretary Calley Hostad asked for formal approval of the July minutes. A motion was made and seconded, and minutes were approved for posting.

Treasurer’s report

• Treasurer Lori Montezon reported that nothing has changed from the last meeting; USS still has $2K to spend this year

Special business

Introductions were made by the representatives in the room.

Guest speaker: Jay Kutka, Senior University Budget Director

• Jay’s presentation will be included at the end of these notes.
• Marquette is within threshold of lower enrollment but well within contingency:
  o Currently down approximately 100 freshmen (budgeted 1740; roughly 1650 new first year students this fall)
  o Down on transfers
  o Will not know actual results until freeze date
• Enrollment trending down; what are we doing differently to fix? Jay shared that the only way to fix is to potentially change how we are recruiting and working with Undergraduate Admissions to discuss alternatives
• Sources of funding:
  o Question: does UA push for sunset clauses on donations? If there is no match, flexibility to match “spirit” of gift could provide more flexibility in usage
• Budget building assumptions:
  o Question: how is the university doing on its HSI goal? Jay is waiting for the freeze date to gauge
• FY22 Summary:
  o Biggest expenditure: compensation
    ▪ Question: is there information on distribution of salaries across campus? Jay suggested inviting Claudia Paetsch to present
    ▪ Question: have you considered balancing budget through avenues other than staff reduction? Yes. Operating budgets have been cut.
• Operating/ Capital budget
  o Question: when remaining funds could carry over, why don’t they? The university could recommend a two-year carryover but that wouldn’t make much difference as the one-year budget would likely just be doubled
  o Biggest problem: cyber security
• How is tuition dollar used?
  o Question: could cost of room and board be lowered? UA is working on scholarships for room and board which may help students/ commuters
  o Question: what is the balance between fixing vs. replacing when it comes to maintenance? Jay suggested asking Lora Strigens to present to the group
  o Question: is university minimizing restricted gifts? No, but the preference is for less restrictive gifts / more flexibility
• Question: what goes into the cost of parking?
  o Uber/ Lyft has affected whether or not people drive to work/ park
  o Hybrid work: there are considerations re: parking for an employee who is not coming to campus every day. There is a hybrid work group through HR.

Subcommittees

Elections and Nominations
• During the recent election, an oversight was made in not outlining the difference between representatives being elected to open positions and those filling in vacated positions where someone left the university.
• No errors were made, and the election is valid. The discrepancy relates to the issue of transparency at the outset.
• Due to this, the Elections and Nominations subcommittee proposes an exception to the by-laws to allow all seven new members a full three-year term.
• Nicolle Skoien, chair of the subcommittee, laid out the proposal to submit to the By-Laws subcommittee. It is as follows:
Question 1: How the election should have been conducted had it been conducted according to the Staff Senate bylaws?
Answer 1: Transparency at the beginning stating that only 4 of the 7 positions were 1–2-year terms.

Question 2: Details of how the election was conducted?
Answer 2: Didn’t share that transparency throughout nominations and elections process. We did follow the bylaws but didn’t communicate that to those who were nominating and voting.

Question 3: A list of who this exception will allow additional time on the committee and how long
Answer 3: Impacts Yvonne, Maria, Calley and Kirsten

Question 4: A complete list of who will be up for election over the next three years so that we can see how the change plays out over time for future elections?
Answer 4: If we allow everyone to take the three-year term, we will have the following terms expiring:
- four in 2022, five in 2023, seven in 2024
If we were to follow the by-laws: there will be
- seven in 2022, six in 2023, three in 2024
- Discussion: should we consider another option altogether? We are still in transition due to the high turnover, and there could be more staffing changes.
- Discussion: how should we move forward with at-large members? Should they be selected from the election results after open positions are filled. The Elections and Nominations subcommittee will work with the By-Laws committee to determine options to move forward after resolving the current situation.
- Next steps: Sherri Lex will email a summary of the Elections and Nominations subcommittee’s proposal. The By-Laws committee will discuss to determine if there are any issues.
- All elected members will vote on how to proceed at the September meeting.
- In the future, we need to be clearer about the elected vs. appointment process.
- Some other possible changes to consider in the election process: can we use MS Forms instead of Qualtrics? Considerations:
  - MS Forms allows one vote/ email
  - User-friendly
  - Not tied to Qualtrics
  - Privacy: not an issue w/ access
If you have concerns, reach out to Nicolle Skoien
